

PRESS RELEASE

Vogelsang presents pumping and grinding technology at the SMM

Proven technology for the maritime industry

Essen (Oldenburg), Germany, July 27, 2022 – [Vogelsang GmbH & Co. KG](#) will showcase its pumping and grinding solutions for the maritime industry at the world's leading maritime trade fair, the SMM (Shipbuilding, Machinery & Marine Technology) in Hamburg. From **6-9 September 2022**, visitors can find out more about the use of Vogelsang's rotary lobe pump and XRipper grinder in the maritime branch at **booth 130 in hall A2**.

"We are looking forward to returning to SMM after a longer break, and to direct exchanges with our current and potential customers. Our pumping and grinding technology provide the industry with proven solutions for even more efficient operation on ships," says Arne Wotrubez, Head of Sales Germany for Industry, Wastewater and Biogas at Vogelsang.

Powerful pumping technology for the maritime industry

The Vogelsang VX series rotary lobe pump is suitable for a wide range of applications on ships: as a cargo and discharge pump, a lubricating oil pump or mobile pump, and for pumping ballast and bilge water. The pumps are robust, powerful and resistant to foreign bodies. Their compact design allows them to be easily installed in confined spaces on ships. Vogelsang's QuickService concept also ensures fast and simple maintenance without long downtimes.

Grinder for food waste

Vogelsang will also present its robust twin-shaft grinder XRipper XRL for increased efficiency in solids grinding. The XRipper XRL is particularly suitable for uniform grinding of galley food waste and spoiled provisions on cargo and cruise ships. Customers can choose from a range of cutting widths, from 6 mm to 32 mm.

Vogelsang at SMM (September 6-9, 2022), Messe Hamburg: Hall A2, Booth 130

About Vogelsang:

Vogelsang GmbH & Co. KG, headquartered in Essen (Oldenburg) in Lower Saxony, develops, produces and sells technically high-quality, individually configurable and service-friendly machines. Founded in 1929, the company grew from a manufacturer of agricultural machinery into a specialist in machines and solutions in the wastewater, agricultural technology, biogas, industrial and transportation technology segments. The innovative family company currently employs over 1,200 people worldwide. As an internationally oriented mechanical engineering group, the company ensures the highest product quality through research, development, and production at the Essen location and in other production facilities in Germany and abroad. Thanks to a continuously growing network of subsidiaries and sales offices, Vogelsang is present with over 50 locations around the world. The company has already received several awards from the economic research institute Prognos AG, among other things as "Germany's innovation leader". Further information can be found online at: vogelsang.info
