

## PRESS RELEASE

### Successful business year: Vogelsang increases revenue

- Sales increase to around 112 million euros
- New production sites in Europe
- Outlook: Vogelsang celebrates 90th anniversary

Essen/Oldb., Germany, 21. February 2019 – [Vogelsang GmbH & Co. KG](#) increased its revenue by 6 percent to around 112 million euros in the financial year 2018. Key drivers for this development are the expansion of the Vogelsang subsidiaries in Germany and abroad as well as the growing global production. “With new assembly lines in Italy and Spain, we successfully set up our first manufacturing plants in other European countries. This is our response to the increasing demand for our products in these countries and we are setting the best possible conditions for further growth,” says Harald Vogelsang, Managing Director of Vogelsang GmbH & Co. KG. The machine construction company holds more than 25 subsidiaries worldwide and employs over 900 people.

### Local assembly lines bring Vogelsang closer to customers

Vogelsang customers worldwide benefit from the growing network of subsidiaries and production sites. Local production facilities and assembly lines help to serve customers more quickly and flexibly. Vogelsang ensures a globally consistent level of quality with defined international process standards. Thus, the company established the new position of the International Manufacturing Manager for introduction and monitoring.

### New products in the segments of wastewater and industry

There were also new developments in the product portfolio: In the wastewater segment, Vogelsang launched two new twin-shaft grinders. The XRipper XRG for large sewers and very high flow rates, and the XRipper XRC100 for narrow, high-ceilinged sewers. Vogelsang presented the two models for the first time at IFAT in Munich. In the industrial segment, the Vogelsang subsidiary [beba Technology](#) presented the prototype of a food mixer at Anuga FoodTec in Cologne.

### Capacity expansion and new showroom at headquarters

At the company headquarters in Essen/Oldb., Vogelsang started construction of a 4,000 sqm CNC hall last year and increased the capacity for the production of dribble bar systems for liquid manure spreading. The new hall is due to begin operations in mid-2019. The new administration building, which offers around 50 additional office

workplaces, has already been completed. As of this year, Vogelsang also has a showroom. "The new showroom is one of the highlights at our headquarters. Here we will present our products and innovations, hold in-house events and press conferences," says Harald Vogelsang.

### **Vogelsang celebrates 90th anniversary**

This year, the company can look back on 90 years of Vogelsang history. Harald Vogelsang says, "2019 is a special year for Vogelsang because it combines innovation with tradition. We will be celebrating this milestone with numerous campaigns and events for our customers, partners and employees throughout the year." Since it was founded in 1929, the manufacturer of agricultural machinery has become a global specialist in technically high-quality machines in the fields of wastewater, agricultural technology, biogas, industry and transportation.

### About Vogelsang:

Vogelsang GmbH & Co. KG develops, produces and distributes technically high-quality machines that are easy to maintain. Its head office is located in Essen/Oldenburg in Lower Saxony, Germany. Founded in 1929 as a manufacturer of agricultural machinery, the company has grown to become a specialist in individually configurable machines for the wastewater, agricultural, biogas, industrial and traffic sectors. At present, the mid-sized, innovative family business employs over 900 people worldwide. Vogelsang ensures the highest production quality through its research, development and manufacturing operations at its location in Germany. As an internationally oriented machine construction company, Vogelsang also operates manufacturing centers domestically and abroad. A continuously growing network of subsidiaries and representatives allows Vogelsang to be present in more than 25 locations worldwide, in all European countries and important industrialized nations in the world. This year the company celebrates its 90th anniversary. Further information can be found online at: [vogelsang.info](http://vogelsang.info)
